LinkedIn: <https://www.linkedin.com/in/rachaelcharewicz/>  
GitHub: <https://github.com/rachaelchar>

## EDUCATION

---

### University of New Hampshire – Portsmouth, NH

September 2019 - March 2020

- Full Stack Development Certification

### Allegheny College – Meadville, PA

August 2013 - May 2017

- BA in Women's, Gender, and Sexuality Studies, minor in Classical Studies
- GPA: 3.84/4.00 | Phi Beta Kappa | *magna cum laude*

## EXPERIENCE

---

### Salem Animal Rescue League

Salem, NH

Events and Marketing Manager

May 2018 – September 2019

- Successfully launched a new website by preparing and deploying a template, improving user experience by upgrading functionality and branding
- Created and implemented a social media management plan to optimize online giving with a recurring gifts program and social media fundraising campaigns, resulting in an increase of over \$10,000 raised
- Coordinated and oversaw all fundraising, volunteer, and community outreach events, including three yearly signature fundraising events that each exceeded their budgeted profits
- Thoughtfully managed donor stewardship and optimized data management for over 5,000 constituents

## PROJECTS

---

### Invengeon Employee Management System

Led a small team to create a full-stack application custom-built to manage adding new employees, generating ID badges, and tracking clock-in/clock-out times.

Built with: JavaScript, HTML5, Tailwind CSS, Node.JS, Express, jQuery, SQL, Sequelize

- GitHub Repo: <https://github.com/rachaelchar/Project-II>
- Deployed Project: <https://invengeonemployeemanagement.herokuapp.com/>

### SocialNite Live Music Finder

Worked in a team of four to create a mobile-first, interactive app that allows the user to find live shows in their area based on location, music genre, and the number of desired results.

Built with: JavaScript, HTML5, Materialize CSS, jQuery, TicketMaster API

- GitHub Repo: [https://github.com/bfall-debug/project\\_1](https://github.com/bfall-debug/project_1)
- Deployed Project: [https://bfall-debug.github.io/project\\_1/](https://bfall-debug.github.io/project_1/)
